EARLY PEACHES KILLED

SO WERE PEARS AND THE TRUCK
IN THE GARDENS MORE
ADVANCED.

THESE ARE REPORTS SUBMITTED TODAY

There Were a Few Flakes of Snow
Monday Afternoon—Mercury Reg-
istered 40 at 6 P. M. and
31 at 5 A. M. Today.

The Democrat-Sentinel today called up a number of farmers and fruit-growers by phone, and the general report by them was that the freeze last night had killed nearly if not all of the early peaches, and also pears and early garden truck.

The rain that fell nearly all of yesterday was followed by a few flecks of snow late in the afternoon and a lowering thermometer, the mercury at 6 o'clock registering 40 degrees above zero.

At 5 o'clock this morning it was 31 above zero, and at 7 a. m. 32 above zero, which latter is the freezing point.

It was cloudy the early part of the night, but it cleared off later and there was a heavy frost. Had it remained cloudy, fruit growers say, the fruit crop would not have been so seriously damaged.

The exact extent of the freeze can not be told at this writing. Some of the people interrogated think possibly not all of the early peaches were killed, while others do not see how they could have escaped, when ice as thick as an ordinary pane of glass was frozen in tubs that stood in the open.

The University Missourian, published at Columbia, had the following on crop conditions in the issue of Monday afternoon:

The peach buds in full bloom were killed by the cold Saturday morning, when the temperature fell to 27.4 degrees above zero, according to W. H. Chandler, of the department of horticulture.

"The peach crop will be light this year in this part of the state," said Mr. Chandler. "Only the most hardy peaches survived the January freeze, and fully a third of these buds were killed Saturday. The plums are not yet killed. The apples will not be in bloom for two weeks, and I feel sure we will have an apple crop. The odds are three to one for a good apple harvest next fall."

RESIGN POSITIONS HERE

Harry E. Gibbons and Leo J. Lennartz
Going to Kansas City.

Harry E. Gibbons and Leo J. Lennartz, popular operators at the Western Union office here, last evening resigned and will leave Thursday for Kansas City, where they have secured positions with the same company at good salaries.

Steve Donohue, who learned the business here, will fill one of the vacancies under Manager Frank E. Gibbons, but the second position has not yet been filled.

Harry and Leo are good boys and good operators, and a legion of friends here will wish for them all possible success at the mouth of the Kaw.

MR. CASSIDY SELLS HIS FARM

He Sold 257 Acres to Clay Whitsel for
\$45 an Acre.

E. G. Cassidy yesterday sold his farm of 257 acres, some ten miles south and west of Sedalia, in the Mike Doherty neighborhood, to Clay Whitsel, of 618 West Sixth street, the consideration being \$45 an acre.

Mr. Cassidy purchased the farm some time ago as an investment, and it is considered one of the best in that section of the county.

The sale was made by Col. James Story, the West Fourth street realty dealer.

THE REV. CARLOS COMES HERE

Will Not Be Transferred to the Indi-
ana M. E. Conference.

The officers of the Epworth M. E. church were last evening advised that Dr. C. R. Carlos, recently pastor of Linwood Boulevard M. E. church in Kansas City, will be pastor of the church here for the ensuing year.

When Bishop Anderson made the

appointments at the recent session of the St. Louis conference, held in this city, Dr. Carlos was assigned to the Epworth church, at a salary of \$1,200 a year, despite the fact that his salary in Kansas City last year was in excess of \$2,000.

Dr. Carlos, instead of accepting the local charge, asked to be transferred to the Indiana conference, but his request was not granted, and he will now accept the Epworth pastorate and will remove here with his wife from Kansas City Thursday of this week.

Dr. Carlos is one of the ablest divines in the St. Louis conference, and Sedalians will be glad to welcome him and his wife to the Queen of the Prairies.

FORMERLY RESIDED IN
THIS CITY.

SHE IS NOW A RESIDENT OF MOBERLY

The Groom-to-Be Is Swan McDonald, a
Contractor and Surveyor of
Randolph County—The An-

Miss Margaret Pilcher, a pretty and accomplished Moberly girl, daughter of Mr. and Mrs. H. B. Pilcher, former Sedalians, but now of the Magic City, and a niece of Mrs. John W. Hicks, of this city, will be united in marriage to Swan McDonald, a contractor and county surveyor of Randolph county, at her home in Moberly in June.

Tomorrow afternoon Miss Pilcher will give an announcement party at her home, but no one outside of the immediate relatives has any idea of the plans of the bride-to-be. Among those who have been invited to attend the party are several Sedalia girls, among them being Misses Stella Hurley and Arline Phillips. Miss Pilcher has frequently visited in Sedalia, where her sweet disposition and charming personality has endeared her to hundreds of acquaintances, all of whom will read the announcement of her approaching marriage with pleasure, at the same time extending congratulations to the young man fortunate enough to win her heart and hand.

He leaves a widow and one stepdaughter. The remains passed through Sedalia last night for La Plata, Mo., where interment will be made.

Gates was formerly employed at the O K barber shop in Sedalia. He left here a year ago, after two years' employment in this city, for La Plata, and just recently went to San Antonio for his health.

EN ROUTE TO THE SENATE

He may get over it, but—

THE MIDNIGHT SALOONS

THOSE THAT KEEP OPEN FROM
THAT HOUR UNTIL 1 A. M.
ON MONDAYS.

THIS IS NOT A NEW THING IN SEDALIA

Practice Has Never Been Questioned
Here, but a Ruling to That Ef-
fect in St. Louis Has Caused
a Decided Sensation.

The keeping open of saloons in St. Louis between the hours of 12 o'clock, midnight, and 1 o'clock a. m. on Monday may be something new in that city, but it has long been the practice with several saloons in Sedalia, especially with those located near the Missouri Pacific depot.

The practice has never been questioned here, but the ruling of Excise Commissioner Caulfield in St. Louis has caused quite a sensation there and at the state capital. A Jefferson City dispatch says:

"Excise Commissioner Caulfield's decision to allow the saloons in St. Louis to open between midnight Sunday and 1 a. m. Monday has caused dissatisfaction among legislative leaders who are fighting the constitutional amendment proposing state-wide prohibition. It is understood, too, that Caulfield's action is not entirely approved by the administration."

"Governor Hadley last afternoon addressed a communication to the excise commissioner, the purport of which he refused to make public."

"Although Governor Hadley is disinclined to say anything that might be construed as even a mild criticism of the new excise edict, it is well known, his friends say, that he favors the strictest regulation of saloons as a means to check the growing wave of prohibition. For this reason it is said he is anxious to be assured that Mr. Caulfield's midnight opening order is justified on legal and moral grounds."

"The prohibition champions say the Caulfield opening has strengthened their materially."

"It is reported that one of their legislative representatives has prepared a resolution asking by what authority the St. Louis excise commissioner extends this privilege to St. Louis saloonkeepers in view of the fact that his predecessor, Thomas E. Mulvihill, ruled that the saloons must close and remain closed from midnight Saturday until 5 a. m. Monday."

DRYS EXPECT TO WIN

ENFORCEMENT OF STATE-WIDE
PROHIBITION IN 1913
MEANS VOTES.

BUT THEY FACE ODDS IN COMING BATTLE

Wets Call It Mistake to Let Prohi-
bition Pass the House—Tomor-
row Afternoon Late Comes
the Tug of War.

Jefferson City, Mo., April 13.—Prohibition continues to be the all-absorbing subject of discussion here.

The Conran amendment to the house state-wide resolution, providing that prohibition shall not become effective until January 1, 1913, is being seriously discussed. The drys are jubilant over it. They believe it will win tens of thousands of votes that otherwise would be cast against prohibition in the event the law should become effective immediately.

The wets seem to feel the same way about it. Some of them have said they think it was a mistake to let this amendment pass the house. The drys must overcome great odds to win if the question is submitted, which seems nearly as certain as anything can be short of accomplished fact.

There has been no change in the leaders' program outlined last Friday. The prohibition resolution has been engrossed and sidetracked until Wednesday at 3 o'clock.

In the interim every effort is being made to influence members one way or another.

One far-reaching restrictive bill has passed the house. It was introduced by Hawkins, of Dunklin, and, if passed by the senate, will please anti-saloon leaguers.

Its purpose is to accomplish practically what the county unit bill would if enacted into law. The latter bill was killed when it came up for final passage.

"My bill," said Mr. Hawkins, "simply raises the population limit under the local option law from 2,500 to 10,000, permitting all towns of 10,000 or less population to vote with the county."

"I am informed that this bill, if enacted into law, would make it possible for the local optionists to hold special elections in all but eleven of the counties of the state, with good prospects of winning."

"It is said by some to be even better than the county unit bill, in that no dry county would be endangered

HURT 30 IN A COLLISION

TROLLEY CARS ON A CHICAGO
SUBURBAN ROAD BADLY
TELESCOPED.

T. C. ACT COMES AT VERY HIGH SPEED

Of Twenty Passengers on One Train
Only One Escapes Injury—Eight
in Gary Hospital, but
All Will Recover.

Gary, Ind., April 13.—Ten men were seriously injured and a score badly hurt in a head-on collision on the Chicago, Lake Shore and South Bend Interurban line, two miles west of Gary, last afternoon.

Only one passenger on the east-bound car, which contained twenty persons, who boarded it at Hammond, escaped without injury.

The crash came as the east-bound car was running down grade at high speed from the elevated crossing over the Joliet cut off. The front ends of the two cars were telescoped when they struck.

Most of the male passengers were crowded in the smoking sections back of the motormen, and it was here that the most serious injuries resulted.

A relief car was sent from Gary and ambulances were in waiting when it arrived here with the injured. Eight of the most seriously hurt were hurried to the hospitals here, where it was reported all would recover. All the seriously injured were from Indiana points and Chicago.

Twenty Days in Jail.

"Jack" Hills was given twenty days in jail by Judge Rickman today for disturbing the peace at the M. K. & T. passenger station.

if it should become a law. I do not expect the senate to pass my bill."

May Return to Sedalia.

J. E. Love, of the Missouri Pacific secret service, who was in the city last evening, says he likes his new home in Kansas City exceedingly well, but Mrs. Love and daughter, Loretta, do not like it near so well as they did in Sedalia, and it would not surprise him in the least if they decided to remove back to this city.

If Mrs. Love could induce F. E. Gibbons and family to remove to Kansas City, she would be satisfied, but it is likely she will never be contented separated from her daughter, Mrs. Gibbons.

LOVE IN A COTTAGE NOW

THE FOOLISH AMERICAN GIRL
WHO MARRIED A JAP ON
PACIFIC COAST.

"WED IN HASTE TO REPENT AT LEISURE"

Window-Washer Husband of Arch-
deacon's Daughter Has New Job
at Seattle, Wash., and
Wife Is Satisfied.

Seattle, Wash., April 13.—Love in a cottage, with furniture on the installment plan, curious neighbors and a strong-minded mother-in-law to act as general superintendent, is the latest development in the romance of Helen Glads Emery, daughter of the broken hearted archdeacon, John Emery, of San Francisco, and Gunjiro Aoki, the former window washer.

After the marriage of the white girl with the Japanese in this city it was given out that they would live on a ranch somewhere on Hood's canal. Instead they took a room in a cheap lodging house in the lower part of the city.

Mrs. John Emery, wife of the archdeacon, who is not here now, remained with the young pair for a time, and conveyed them to Dunlap, a suburb of Seattle, where a little cottage was picked out and rented. The furniture will be in today and the billing and cooing will proceed.

Helen Gladys Aoki says the newspapers are bothering her and that she wishes to be let alone, as she is satisfied with her oriental window washer. Aoki is going to be promoted. He has a job in sight. He is to be assistant manager of an oriental trading company.

Evans, S. P. Sneed, C. B. Wallace, H. A. Pratt, Misses Blanche Bosserman, Helen Goodyear and Mr. Harvey Dow.

Each member is entitled to six invitations for guests.

WILL WED ON APRIL 28

Campbell, pastor of the First Baptist church, at the home of Miss Martin on the afternoon of Wednesday, April 28.

A few relatives and intimate friends will be invited to attend the wedding, which will be followed by a supper, and the bridal couple will leave on the flyer that night for Muskogee to reside.

Mr. Powell's Auto Is Here.

W. H. Powell today received his handsome five-passenger, forty-horse power Thomas automobile, which attracted considerable attention on the street. The machine is one of the best in Sedalia.

IN THE GRIP OF FLAMES

ROCHESTER, N. Y., ATTACKED BY
TWO DASTROUS FIRES AL-
MOST SIMULTANEOUSLY.

DAMAGES ARE OVER A MILLION ALREADY

At 3 O'clock the Conflagrations Were
Still Unchecked and Were Sweep-
ing All Before Them—Help
Asked From Other Cities.

Rochester, N. Y., April 13.—The city of Rochester appears to be at the mercy of two alarming fires, which are raging simultaneously in different sections of the city. At 2 o'clock this afternoon the fires were still spreading, and the loss had already amounted to a million dollars.

The Rochester militia is on duty in the streets, and help has been summoned from Buffalo and Syracuse.

The fire broke out in the four-story Selden building at the corner of Bibbs and Main streets. The flames leaped from there to St. Peter's church in Grove street, and then to the big Jewish synagogue. An apartment house on Grove street, valued at \$100,000, was swept away, and the flames then attacked a score of residences on that and adjoining streets, and are now spreading to others. Numerous houses are burning without a single stream of water to check the fire.

About the same time a fire broke out in the First Reformed church on Nassau street, in another section of the city about a mile away. Only one fire company could be spared for this fire and the church soon fell a prey to the flames, which spread to adjoining residences and are now sweeping the street.

THE MAN WHO USED A KNIFE

Henry Snedeker Was Released on a
Bond of \$500.

Henry Snedeker pleaded not guilty to the charge of feloniously assaulting his brother-in-law, John Bartlett, when arraigned before Judge Hoffman in criminal court today. His bond was fixed at \$500, which E. N. Harrison signed, and the case was continued until the next term.

James Baggett, who yesterday was fined \$25 for impersonating an officer, and who was later paroled on his promise of good behavior, had his parole revoked today and he was ordered to serve out the original fine.

J. F. M. Counce, charged with illegal voting, was placed on trial before the following jury this morning: J. A. Kruse, Levi Overmier, O. A. Easter, F. J. Hutchinson, Flem Hughes, W. E. Reavis, J. H. Farley, Mitchell Finnegan, L. E. Wells, W. L. Metts, C. R. Kelly and Harry Dobel.

"JUM" JENNINGS SET FREE

No Evidence to Hold Him on the
Charge of Robbery.

"Jum" Jennings, who was arrested Sunday by Deputy Constable Brown, was arraigned in Judge Rickman's court at 5 o'clock Monday afternoon, on the charge of highway robbery of \$7 from Harry Buckner, also a negro. After the introduction of evidence Judge Rickman dismissed Jennings, as there was not a particle of evidence to warrant a conviction.

During the course of the hearing "Dode" Hubbard, a sister of the prisoner, fainted.

Dr. J. M. Harris was summoned, and, after reviving her, ordered her taken to her home in a carriage.

THE NEWSPAPERS AND THE
LIQUOR QUESTION.

The Rev. Dr. David James Burrell
asserted from his pulpit on Sunday
evening that the newspapers can re-
present only one side of the Sunday sa-
loon case, says the New York World.
"You have not to look far to see
the reason," said he. "Just open your
newspaper tomorrow morning and
see the investment of the liquor men
in its advertising columns."

Those readers who, taking the
preacher at his word, looked in the
World on Monday, found 704 col-
umns of advertising, or 1,855 inches.
Of this total 7 inches were devoted
to liquor advertising—the card of a
wholesale liquor house.

The Times, with 51 1/2 columns of
advertising, gave six inches to whisky
and wine, while the Herald ran about
5 1/2 columns with a 1/4 inch adver-
tisement of a brand of beer.

The Press boomed a burgundy to
the extent of three inches in 2 1/2
columns, and the venerable Tribune
had the three-quarter inch card of a
champagne house lurking amid its
18 1/2 columns of business.

The esteemed Sun presented a hor-
rible example of advertising two
kinds of beer, one whisky and one
burgundy—about one column out of
its 30 1/2 columns of commercialism.

Altogether, seven morning newspa-
pers presented 294 1/2 columns of ad-
vertising, of which the liquor busi-
ness occupied less than two and a
quarter columns, or about seven-
tenths of 1 per cent.

Now, Dr. Burrell is a preacher for
whom New York has learned to en-
tertain the highest respect. He is a
man of kindly instincts. His sincerity
is beyond question. He has not been
known as a demagogue or a moun-
tain-bank of the pulpit.

On the ground of good judgment,
we are sure he does not believe the
press of New York has sold its soul
for forty-four inches of advertising.

Yet, like many other opponents of
a rational Sunday law, his prejudices
are so strong that he can not bring
himself to attribute honest motives to
anybody with whom he disagrees.

DAILY PAPERS THE BEST.

That the daily newspaper is the
best medium which an advertiser can
use was made plain in a recent ad-
dress by T. D. MacGregor, publicity
manager of the Bankers' Magazine, in
an address before the Banking Insti-
tute. Following is an extract from
his speech, says the Fourth Estate:

"The two most important factors of
resultful advertising are right medi-
ums and right copy. The daily news-
paper is the most valuable adver-
tising medium for any bank seeking
local business. There is no better way

to reach a large number of persons
cheaply and effectively.

"The newspaper is a part of the
daily life of the American people. It
goes everywhere. Everybody reads it.
If he is wise, the advertiser in it
makes his message fresh and new
daily, too.

"The daily newspaper can best give
the constant repetition that wears
away forgetfulness and forces atten-
tion. It enables the advertiser to tell
his story quickly.

"It makes it possible for him to
reach many people whom he could
reach to advantage in no other way,
as everybody who reads at all reads
some newspaper.

"Size of circulation is not the only
thing to be considered in choosing an
advertising medium. There is a qual-
ity as well as a quantity factor which
enters into the case. For some kinds
of advertising 50,000 of a high class
circulation is worth 100,000 of a
poorer class.

"The editorial policy and the char-
acter of the news columns of a news-
paper have an important bearing on
the advertising value of the medium.
A wide-awake paper, which is clean,
ably edited and progressively manag-
ed, is a splendid place for an adver-
tising bank to present its announce-
ments.

"In such a paper your advertise-
ment will be in good company. An
honest and fearless newspaper in-
spires confidence on the part of its
readers, and this confidence is given
likewise to those who advertise in it.
If its editorials carry weight and its
news matter is well presented, the
advertisements in its columns have
the best kind of environments for
satisfactory results.

"It is better to use small or mod-
erate space regularly than large space
spasmodically. The general reading
pages of a newspaper are better than
the financial page, because those who
read the financial pages likewise see
the other pages, but all those who
read the general pages do not read
the financial page. Three insertions a
week is better than one insertion a
week, and every day is better still."

Sedalian Was Applauded.

E. J. Beyeler, the tragedian, return-
ed this morning from Concordia,
where, last night, at the Concordia op-
era house, he received a hearty wel-
come in connection with his appear-
ance on the program in selections
from Shakespeare.

Mr. Beyeler's work was exception-
ally fine, and round after round of
applause greeted him after each pre-
sentation.

On April 28 Mr. Beyeler will ap-
pear at George R. Smith college.

INDEPENDENCE

DAY in and day out; rain
or shine; sunlight or
shadow; all the way down
through the years of life one
great desire seems to exist—to
be independent. If you have
never felt this desire it is prob-
ably because you have never
really thought seriously and
earnestly about the unlimited
want, suffering and regret that
may come to a man or woman
who grows old and becomes de-
pendent upon others for the
comforts and necessities of
life. The only sure way to
avoid such an unfortunate con-
dition as penniless old age—the

WIFE TRADE STORY A LIE

MRS. MARY LOUISE POTTER IS FURIOUS OVER THE ALLEGED SLANDER.

HAS NO IDEA HOW THE TALE ORIGINATED

Says There's Nothing in the Report and Then Pours Out the Vials of Her Wrath—She Won't Wed Mr. Depew?

San Francisco, April 13.—Unequivocally and passionately, Mrs. Mary Louise Potter yesterday at the home of her father, Dr. A. F. McNutt, declared absolutely untrue the Colorado reports of an extraordinary arrangement between her former husband, Ashton Potter, and his erstwhile friend, Gascon Depew, to "trade wives."

There was a ring of true womanliness in her voice, in the scornfulness of her reference to the fashionable gossip of Broadmoor, the Cheyenne Mountain Country club, the Antlers and other resorts for rich idlers.

Mrs. Potter branded the story as outrageous and an insult to her womanhood. She also declared a positive belief that no such report could have been given currency by Ashton Potter or Gascon Depew.

She pronounced false the imputed suggestion that she is to wed Mr. Depew and she further said it is untrue that she and her former husband ever went to Paris or any other European city as traveling companions of the Gaston Depews.

"I am too angry to speak about it at all," declared Mrs. Potter with cutting scorn and drawing herself up to her full height, gracefully tall and defiant.

Then with the charming contradiction of her sex, she poured out the vials of her wrath until the storm was expended.

Then her sense of humor gained the upper hand and she ended the interview with: "If it were not so outrageous I could laugh at it, because it is so ridiculous."

As to the future plans of the other members of the quartet involved in the story sent out from Colorado Springs, she made no pretense of knowing, and showed that the discussion was distasteful to her.

ALMOST DESERVED TO ESCAPE.

Truant's Quick Grasp of Opportunity Compels Admiration.

The absent-minded professor returned home one night to learn that his son had played truant from school, and he was asked by his wife to hunt up the missing youngster and administer a sound thrashing.

"Why, I'll flay him alive!" exclaimed the angry father. "I'll break every bone in his body! Just wait until I get him out in the woodshed!"

He came across his heir playing marbles about a mile from home, but the boy didn't seem to be a bit alarmed by the old man's threats. As they started to return home the absent-minded professor stopped to chat with an old acquaintance, and it was fifteen or twenty minutes later when he looked down in wonder at the boy at his side and asked:

"Why, where did you come from, Jack?"

"Don't you remember, father?" smiled the boy, we are on our way to buy me a box of candy, because of my excellent school report."

"Bless me, but so we are," agreed the absent-minded professor, as he patted the boy on the back and started for the store.

MR. MITCHELL GETS STUNG

Kills Own Bill in Effort to Smother One Thousand Others.

Jefferson City, Mo., April 13.—Representative Mitchell, of Polk county, took the lead last afternoon in an effort to clear the cause calendar of many bills which are certain to never reach the statute books.

"I have come to the conclusion that about 800 or 1,000 bills introduced this session should be killed," said Mr. Mitchell, "and although I believe a bill introduced by me relating to the examination of abstracts of titles of real property is as good as the majority, I am willing to take the initiative by moving that it be indefinitely postponed."

The house took Mr. Mitchell at his word, but none followed to the extent of killing pet measures.

MARRIED A GRASS WIDOW

Wealthy Old Man Had Known Wife Since Her Babyhood.

Wichita, Kas., April 13.—George Harmon, aged 76, and Mrs. Grace Dawson, aged 22, were married here yesterday. Mr. Harmon is a widower and owns many houses, bonds and a lot of other property. Mrs. Dawson is pretty and vivacious and her new-old husband has known her since babyhood.

He declares he is marrying her to legalize the disposal of his wealth, as he wants her to get it without possible tangle or technicality intervening.

Mrs. Dawson was a grass widow and a seamstress in a department store. They have gone to Hot Springs, in hope of extending his lease on life.

The Aeroplane in War.

Judging from the present outlook, it seems that the field of the aeroplane in military work will be distinct from that of the dirigible balloon. It will not be able to carry great weight, like the dirigible, but it will be much swifter. Being smaller and more compact, and requiring no gas-making apparatus, it will be more easily transported. A single supply ship could carry a whole fleet of them, and they could be quickly put in action. They will probably become the cavalry of the aerial army, while the heavier and more formidable will constitute a combination of infantry and artillery.—From Henry B. Hersey's "The Menace of Aerial Warfare" in Century.

Holland's Way.

In Holland there are few able-bodied paupers. There is a tract of public land containing 5,000 acres, which is divided into six model farms, and to one of these is sent the poor person applying for public relief. If he voluntarily serves until he learns agriculture he is allowed to rent a small farm for himself and be what is called a free farmer. Every pauper who is thus reclaimed to honest regular industry is so much gain to the state. There is also a forced labor colony, where beggars and vagrants are sent and made to do farm and other work, whether they like it or not.

Very Pleasant.

"It must be nice," said the caller to the author's wife, "to have your husband at home so much of the time."

"Yes," replied Mrs. Richard Darlington Spriggles. "It gives me a chance to go out."—Harper's Weekly.

SHOT WITH BABE IN ARMS

Chicago Grocer Murdered, Following Black Hand Threat.

Chicago, April 13.—Another murder of a peculiarly desecrate character, attributed by the police to the "black hand" society, occurred here last night.

Joseph Fillipoli was shot in front of his store by an Italian who was caught and identified later as having left a letter demanding \$1,000 on a saloon keeper's bar in the neighborhood a few weeks ago.

Fillipoli was locking his store for

the night and had his baby in his arms and his wife by his side when attacked.

The child was thrown to the ground and a shot fired into the grocer's abdomen. He died a few hours later in a hospital.

Fillipoli's brother-in-law, who owns a part interest in the grocery, received a letter demanding money a few months ago. He failed to pay the money and was shot at from ambush.

Mo., is under arrest here charged with the murder of his brother, Chas. B. Morris, a farmer, with whom he lived.

LUMBER MILLS TO CLOSE Mild Laxative for Baby Free

COMBINE FORMED BY OWNERS TRYING TO FORCE RAISE IN THE PRICE.

BUSINESS IS DULL, SO THE DEALERS SAY

Kirby Interests Represented at Kansas City Meeting—South Is Affected to Greater Extent Than Other Sections.

Kansas City, Mo., April 13.—Following a conference held by prominent lumber men in Kansas City yesterday, it was stated that nearly a thousand lumber mills in Texas, Louisiana, Mississippi and Florida will be shut down for an indefinite period.

The effort to shut down one of the biggest industries of the south is the direct result of business depression, according to the men engineering the deal.

The combine members say they will force up prices and will remain closed for twelve months if necessary.

"Business has become so slow we will make the dealers hump it we have to stay closed for a year," said F. E. Patterson, of Kirbyville, Texas, one of the Kirby coterie which controls more than \$800 mills.

"It is simply a case of no prices for lumber. We hold our lumber, thinking we shall get a dollar more on the car next day. The dealers hold off buying, thinking they can get it a dollar less on the car."

"There is no business, and rather than sell at any price we can get we will force the dealers to pay our prices by cutting out the supply as long as is necessary."

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents, for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control.

The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks cheerful; the little child whose stomach is good, rumps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear and its stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative, wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Cullum, Plainville, Ind., and many others can testify who give it to their children with extraordinary results.

A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in case of indigestion, flatulence, torpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. It never grips or strains like pills, tablets, salts and powders, which should not be given to children, women or old folks.

If you have a child or other member of the family who needs, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this bottle you can find out what it will do without personal expense.

If there is anything about your aliment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. E. Bard, 509 Caldwell bldg., Monticello, Ill.

KIT KAT CLUB'S FINAL DANCE

Young People Enjoyed Themselves at Colonial Hall.

One of the most delightful dances of the year was given at Colonial hall last night by the Kit Kat club, and it being the final one of the season, extraordinary arrangements had been made to make it very elaborate.

Punch was served during the evening and delicious and substantial refreshments were served between the twelfth and thirteenth dances.

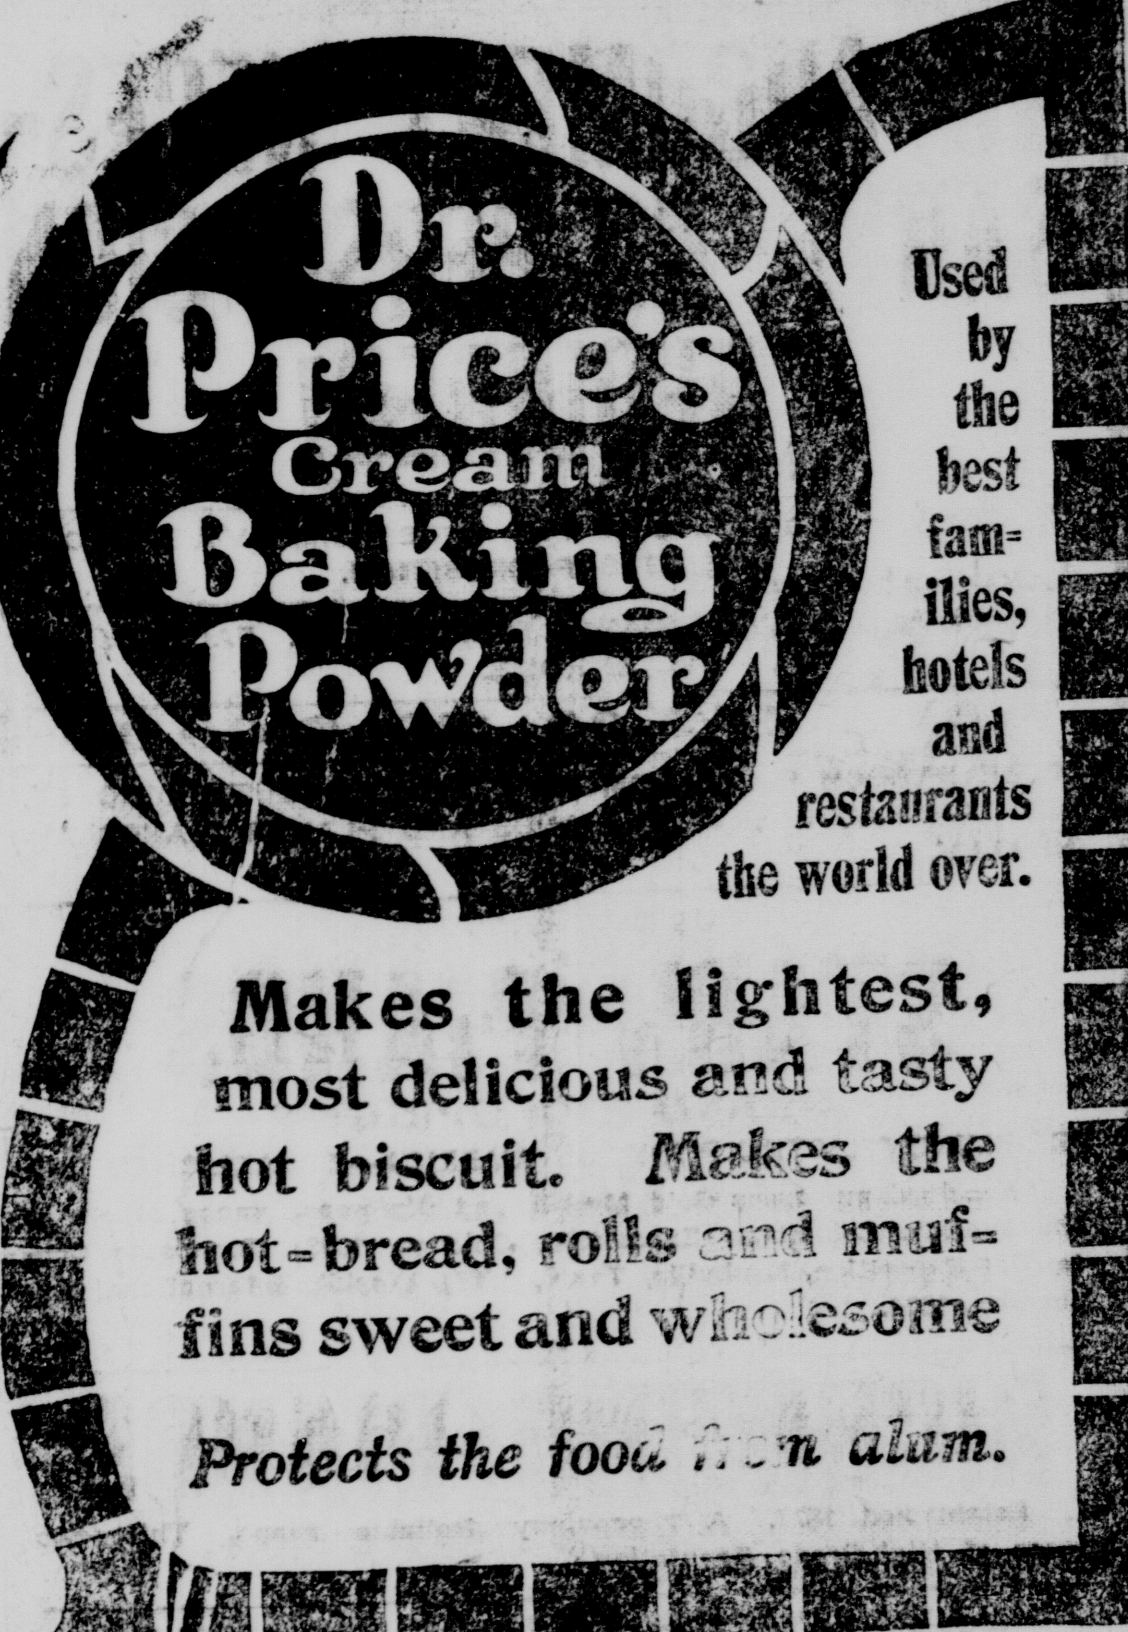

Music was furnished by an orchestra of five pieces from the Second Regiment band.

The program consisted of sixteen dances and three extras. The grand march was led by Miss Julietta Zeits, of Jefferson City, who is visiting Miss Stella Hurley, and Eamon Fay, who is president of the club.

There were many out-of-town guests present, and also a number of our home boys who are attending college, as follows: Roy Palmer and wife, of Muskogee; Miss Gem Binkley, Sweet Springs; Miss Tracey, of Kansas City; Miss Bessie Estill, of Carrollton; Miss Hazel Mahan, of Kansas City; Miss Gail Hetherington, of Atchison, Kan.; Miss Carmalita Bush, of Kansas City; Miss Mary Baxter, of Clavbrook, Ky., and Miss Elizabeth Dunbar, of St. Louis; Messrs. Will Curry, of Jefferson City, and Bob Spencer and Bob Estill, who are attending school at Columbia.

The dance broke up after 2 o'clock, and everyone said it proved a great success.

RECORD MARKS REACHED.

Wheat Went Higher Today Than Ever Known Before.

Chicago, April 13.—May, July and September wheat established new high record marks at the opening here today. May wheat, all the available

supply of which is in the hands of one man, opened at \$1.27@1.28, three cents better than the most sanguine prediction made two months ago by the leading bull.

July reached \$1.17½, and September \$1.09½.

The general belief is forcing itself on traders that there is a world-wide shortage of wheat.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven medicine. Ask your neighbors. They must know of remedy of known composition. Many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

BABY'S ITCH EASILY CURED

Infantile Eczema Quickly Relieved by Washing With Wintergreen Compound.

Results of the last two years indicate conclusively that baby's itch, infantile eczema and other skin diseases of children can be very simply cured by the application of a compound composed of oil of wintergreen, thymol and glycerine, as in D. D. D. Prescription.

The Rev. Lewis Steele, of Weatherly, Pa., writes:

"Our baby boy's little face was so dreadfully covered with eczema that blood and water ran from the sores nearly all the time. After using 3½ bottles of D. D. D. Prescription (at \$1.00 a bottle) we are so happy to tell you he is entirely cured and the disease has never broken out again. If this letter is in any way a help to other sufferers, you may publish it."

If you have a child which is suffering with the terrible itch, we are sure you will not neglect one hour to give your baby the right kind of relief. We have seen too often how quickly the remedy mentioned above takes the itch away at once and how all the cures seem to be permanent; we have seen this too often to hesitate at all in recommending the remedy for your children.

PECULIAR APPEAL TO HEAVEN.

Ceremonial Observed by Chinese When Rain Is Desired.

Prayers for rain are a common feature of religious observance in China, and the attendant ceremonial sometimes takes strange forms. A correspondent of the North China Herald reports a curious celebration which recently took place in Chienyuan. The orthodox three days' fast was proclaimed, and the officials went to the temples to present incense, while the people organized a procession with a plentitude of gongs and drums. As the processionists passed along the street they were drenched with water by the residents, who had tubs in readiness.

"But the great peculiarity of the occasion was a dog. He was tied sitting up in a common chair with an old garment round his shoulders and an old 'big man's hat' on his head. He got a double share of the water along the route and seemed to have entirely exhausted the glory and the fun of his position. The explanation of the ceremony was this. Among the domestic animals the dog is placed lowest. But the people in their attempt to move the pity of heaven said in effect: 'We will put ourselves lower than the dog, we will give him the honor of riding in state as our master, if only you will give us rain.'" The correspondent adds that rain fell before sunset.

Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

George J. Gould, president of the Missouri Pacific, was in his office in New York city Monday for the first time since his return from his southern sea trip and was engaged, according to one of his associates, in perfecting plans for the Missouri Pacific bond issue, which has been under negotiation between the management and Kuhn, Loeb & Co.

It has been understood that it was arranged before Mr. Gould's departure to create a new bond issue of about \$150,000,000, securing it by a blanket mortgage, and providing for the refunding of outstanding bonds and the sale of a part of the new bonds for the physical needs of the road this year.

There has been no change, it was said, in the general feature of the plan in that respect that it provides a comprehensive and adequate financial scheme.

The only matter still open for consideration, it was added, are the amount and price of the bonds to be taken by these bankers in the initial allotment of the issue.

Conductors Are Not Pleased.

Protests are being made by members of the Order of Railway Conductors on the Missouri Pacific by reason of the new arrangement made for the running of conductors on the "swing" runs in and out of Sedalia.

Hiram Lewis, who for years has been on trains Nos. 37 and 38, between Sedalia and Kansas City, now runs on the main line, on the Lexington branch, to Warsaw and return, and even as far as Marshall and return, via Tipton and Booneville.

This route is also followed by J. H. Laferty, another conductor old in point of service, and on this account there arises trouble, which may eventually result in the brotherhood taking a hand to settle the matter.

Compromise Is Looked For.

Notwithstanding that the Missouri railroads are preparing to make a vigorous defense in the injunction suit pending in the St. Louis circuit court, there are substantial indications that they will decide to establish a flat rate of 2 1/2 cents a mile on passenger business throughout the state.

By a considerable majority of the carriers it is believed that this rate will satisfy Governor Hadley and will serve as a permanent adjustment of their troubles in Missouri, and the only matter in doubt relates to the road that will take the initiative.

Missouri Pacific Vacancies.

The following vacancies were announced at the local offices of the Missouri Pacific today:

For one conductor for first extra passenger work out of Sedalia, excluding the Warsaw and Versailles branches.

On the Versailles local, formerly held by O. D. Rizer.

On Nos. 93 and 94, formerly held by R. H. Beard.

For two passenger brakemen with Conductors Rizer and Beard.

The runs must be filled not later than April 21.

Frisco Shops Closed.

A telegram from Sherman Texas, announces the closing of the Frisco shops there indefinitely. The move has caused surprise because the shops had only been opened a short time, after a long period of reduced force and short hours.

At St. Louis headquarters it was said the closing of the Sherman shops is only part of the retrenchment policy over the entire system on account of continued agitation against railroads accompanied by declining revenues.

Gould Line Awards Contract.

The Missouri Pacific in Kansas City Monday awarded a contract to a local construction company for the ballasting of the lines between Kansas City and Pueblo, Colo., also between Coffeyville, Kas., and Little Rock, Ark., and between Little Rock and Leeper, Ark.

The contract also calls for the ballasting of a number of short lines in Western Missouri and Eastern Kansas. The work is to be started at once.

George W. Smith Dead.

George W. Smith, of Kansas City, Kas., died Monday at the Missouri Pacific hospital in St. Louis.

Engine Was Derailed.

Missouri Pacific train No. 635, in charge of Conductor R. H. Beard, which returned from Tipton, Booneville, Marshall and Versailles at 7:15 o'clock Monday evening, was derailed in the yards shortly afterward, when the engineer of the train was preparing to back the coaches on a side-track.

The cause of the derailment was due to a thrown switch and the locomotive jumped the track. No one was injured and the engine was soon replaced.

Branch Brakeman Killed.

Edward Wells, a Missouri Pacific Central Branch brakeman, was killed by a freight train at Beloit, Kas., Sunday night while trying to board a car. He fell under the wheels, which passed over his chest. His family lives at Greenleaf, Kas.

The Man Who Was Found Dead on St. Louis Street.

St. Louis, Mo., April 13.--It has been learned that the man who was picked up with his skull fractured at Ninth and Lucas avenue and who died at the City hospital as "Edward Duvall," was Harry Kane, recently an editorial writer on the St. Louis Star and former noted Eastern dramatic writer.

He had been living with his mother, Mrs. F. A. Kane, here. She returned to their former home in Norfolk, Va., last week.

Last Friday an unknown woman paid Kane's bill at the Hotel Beers here, but said nothing about his baggage, still here. His death was due to epilepsy.

PIERCE FINE IS UPHELD

THE UNITED STATES SUPREME COURT DENIES REHEARING IN TEXAS.

COMPANY MUST CRACK DOWN \$1,623,000

Victory of Lone Star Authorities in Three Anti-Trust Suits Will Be a Bonanza for J. D. Gruet, Magnates' Nemesis.

St. Louis, Mo., April 13.—The United States supreme court in Washington, Monday afternoon, administered a crushing blow to the efforts of the Waters-Pierce Oil Co., of St. Louis, to evade payment of a \$1,623,000 fine imposed by the Texas courts for three violations of the state's anti-trust laws.

The court denied peremptorily the application of the oil company's lawyers for a rehearing in all the so-called Pierce cases, which were appealed from the recent decision of the supreme court of Texas.

No opinion was given by the justices in Washington, this silence seeming to show that the court regarded the appeal of the company as merely a temporary move.

Former Judge Henry S. Priest, counsel for the Waters-Pierce Oil Co., and for Mr. Pierce, told a reporter that "the fine would be paid readily."

"As soon as the mandate reaches here I presume the fine will be paid at once," said he.

Hopes of former Senator Spooner,

of Wisconsin, who was retained by H. Clay Pierce as a last desperate effort to stave off the heavy penalty, were shattered by the court. It is only the second large case which he has submitted to the country's highest tribunal, and his protests were unavailing.

When the application for a rehearing was first filed in the court, Spooner, replying to accusations of bad faith against Mr. Pierce, his client, protested that the action had taken was not for the purpose of gaining time. The court's action indicates a different view. Inasmuch as no opinion accompanied the denial by the court it is evident that the action of the justices was unanimous.

This fine is the largest ever assessed against an oil corporation that has "stuck." Beside the impost which the company must pay forthwith before it can do business in Texas, the \$50,000 recently paid into the treasury of Missouri is insignificant.

In case the fine remains unpaid, Attorney General Davidson and Governor Campbell, the latter of whom has come out as an avowed foe of Pierce, will seize the company's property in Texas and sell it at public sale to realize the amount of the penalty.

It is this large penalty out of which John P. Gruet, of Webster Groves, Pierce's Nemesis, will realize a big sum for his services in exposing Pierce's trust affiliations in Texas and his protestations of trust independence.

COURT HOLDS ACCUSED NOT RESPONSIBLE FOR LIBEL IN ILLINOIS.

JOHN D. ROCKEFELLER IS THE ACCUSED

S. S. Carvalho, Bradford Merrill and E. H. Clark Not Shown to Be Publishers—Judge Flays Guilty Parties.

New York, April 13.—The writ of habeas corpus, obtained in behalf of S. S. Carvalho, Bradford Merrill and Edward H. Clark, officers of the Star Co., publishers of the New York American and the Evening Journal, in the action brought against them for criminal libel on complaint of John D. Rockefeller, Jr., was upheld in the supreme court yesterday by Justice Gerard and the defendants ordered discharged.

Mr. Rockefeller complained of the publication in the New York American of Dec. 17, 1908, of an article wrongfully accusing him of having originated a peonage system to which the employees of a certain breakfast food company in Illinois were alleged to have been subjected.

The article, which was promptly disavowed the next day, when a full retraction of the original allegations was printed, recited that part of the system for which Mr. Rockefeller was held responsible, consisted of the keeping of workmen in a stockade, guarded by armed sentries and inclosed by a wire fence, along which charged electric wires were run.

In his opinion Justice Gerard characterizes the article as gross and vicious libel, the writers and publishers of which should be brought to trial, but finds that no evidence exists to show that Messrs. Carvalho, Merrill and Clark had anything whatever to do with the writing and publication.

The decision affirms the principle that the officer of a corporation which publishes a newspaper simply because they are such officers and without any further proof to connect them with the management of the newspaper, are not responsible for its utterances.

"When a corporation has published a libel," said Justice Gerard, "every person who is at the time of the publication in any way engaged in the actual management of the corporation is subject to prosecution. Some proof of actual management must be made to hold any person for trial."

THIS LOOKS AWFULLY "DRY"

What They're Doing to the Saloons in Indiana Is a Plenty.

Indianapolis, Ind., April 13.—Within less than three and a half months from the first election under the new local option law, forty-two counties have been voted dry. Until reverses were met last week in Casa and Blackford the Anti-Saloon league was driving the state towards prohibition at a runaway pace. Superintendent Shumaker, of the league, says by the end of April at least eighty of the ninety counties will have boarded the water wagon.

Jackson, White, Delaware, Kosciusko, Starke, Martin and Jefferson are among counties that will vote this month. The league purposely tackled the

easy propositions first to create a sentiment and get experience, but is ready now for the wet strongholds, Terre Haute, South Bend, Fort Wayne, Muncie, Anderson, Lafayette and other larger cities are to be scenes of bitter fights during the next few months. For the time being nothing will be done toward making Indianapolis sillonless.

DESIRES TO SERVE SENTENCE OF PARENT IN JOLIET PENITENTIARY.

COLD MOTOR CONCERN FAILURE SEQUEL

Benson Bidwell, Aged 80, May Escape Term in Prison for Defrauding Stockholders, Including About 4500 Females.

Chicago, April 13.—A son's plea to be allowed to serve his father's sentence in prison practically insured the escape of Benson Bidwell, inventor and promoter of the Bidwell "cold motor" concern, which collapsed over a year ago, immunity from a convict's cell yesterday.

Prosecutor George M. Popham went before Judge Chetlain and said he was willing that Benson Bidwell be let go after serving a short jail sentence, provided Charles E. Bidwell, the son, be taken to the Joliet penitentiary, at once.

The Bidwells were convicted of having defrauded the stockholders of the concern, and both were given penitentiary sentences. Benson Bidwell is nearly 80 years old and his son is over 60 years old.

In the crash of the "cold motor" concern the fortunes of 4,500 women were wiped out. The son pleaded to be allowed to go to prison in his father's stead, declaring that the aged man would not survive the rigors of a convict's life.

Judge Chetlain continued the case until Wednesday in order to allow Benson Bidwell to produce physicians to testify to the gravity of his physical condition.

Rev. F. E. J. Lloyd Ceases Being Catholic After Two Years.

Chicago, April 13.—Rev. F. E. J. Lloyd, the Episcopal minister who embraced the Roman Catholic faith two years ago, has recanted and returned to the Episcopal church.

Yesterday he began a three years' service as a "penitent layman," to again acquire the right to officiate as an ordained minister. All the members of his family returned to the Episcopal fold with him.

Last week Lloyd went to Bishop Anderson, Episcopal bishop of Chicago, and formally recanted, asking to be reinstated.

Rev. E. V. Shaylor, rector of Grace church, Oak Park, Ill., Sunday received Dr. Lloyd, his wife and seven children back into the faith.

KANSAN HAS FREAK COLT

Has Only Three Legs Upon Which It Navigates With Ease.

Marysville, Kas., April 13.—Homer Hightower, of this city, who recently moved here from Western Kansas, has a freak colt.

The colt was foaled at Webster, Kas., June 27, 1908, and is of almost the same size as all colts of its age, considering the type of its progenitors. It has but three sound legs, the two hind ones and the right front leg.

In place of the other front leg is a small appendage, probably a foot in length, in the shape of the lower part

of the hind leg of a large jackrabbit, and the foot thereon is fashioned like that of a rabbit.

The animal appears well and hearty and is perfectly able to stand upon and navigate with ease on its three good legs, although not as rapidly as had it been properly formed.

Itching was Intense—Humor Spread

BUT CUTICURA CURED
HIM IN THREE WEEKS

"My trouble commenced about two years ago and consisted, at first, of an eruption of small pustules on my hands. These spread later to other parts of my body, and the itching at times was intense, so much so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me awake at nights. I tried several doctors and used a number of different ointments and lotions but received practically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Resolvent Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. I have had no trouble of this kind since. H. A. Krutskoff, 5714 Wabash Ave., Chicago, Ill., November 18 and 28, 1907."

SKIN HEALTH
Effected by Cuticura Soap,

The agonizing itching and burning of the skin, as in eczema, the frightful scaling, as in psoriasis, the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in "tetter," or salt rheum—all demand a remedy of extraordinary virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent (liquid or pills) are such stands proven by unquestioned testimonials.

President McKinley performed his task somewhat more easily, but when Theodore Roosevelt took the office he revived the Cleveland plan, with a few additional features of his own. Theodore Roosevelt made practically all federal appointments and dismissed all delinquents. The amount of detail which he accomplished in every department under executive control would have broken down any man with a lesser amount of vital force.

It was supposed that President Taft would attempt to follow the pace set by his friend, the apostle of the strenuous life, when he succeeded to the purple, but President Taft is resolved to do his work thoroughly, and to do it thoroughly it must be done thoughtfully. That he may be able to give all his time to the strictly important functions of a chief magistrate, he has turned over to each cabinet minister entire control of his department.

It would be a better thing for the whole executive branch of the government if President Taft's action should establish a precedent that no future president would dare to break. Cabinet officials ought not to be figureheads. They should be given charge of every activity connected with their departments, and they should be given the power to pick the men upon whom responsibility is to be placed. In turn, the cabinet officers should be, as President Taft has decided, responsible to the president for the work of their subordinates.

Theodore Roosevelt was a human dynamo. He could probably accomplish more work in less time than any other man in the United States. But some of his own best efforts were wasted, and the future will see them being done over.

HOW TO GROW FAT

A Lazy Stomach the Cause of Thin-
ness, Nine Times in Ten.

If you are thin or lean, have scraw-
ney arms and neck, you can't grow
fat unless your food properly digests.
People take on flesh in proportion
to the nutritious matter which the
organs of digestion absorb and pass
into the blood.

Just as long as this nutritious mat-
ter passes along without being ab-
sorbed, just so long will you remain
thin.

Perhaps your stomach, bowels and
liver need a tonic. If your digestion
is not perfect Mi-on-a tablets will put
it right at once.

Mi-on-a will cure indigestion and
every conceivable ailment of the
stomach promptly. It cures by build-
ing and toning up and not by encour-
aging a tired stomach to continue its
shiftless and health destroying habits.
It promptly drives away sour stomach,
belching of gas, heaviness after eat-
ing.

W. E. Bard Drug Co. sells Mi-on-a
for 50 cents a large box, and guaran-
tees it to cure indigestion, sea and car-
sickness, vomiting of pregnancy, and
all stomach diseases and distress, or
money back.

SCHEMES OF A SMUGGLER

THEY WILL BE EXPOSED AT THE
TRIAL OF CAPTAIN MAU
RICE BARNIER.

SECOND IN COMMAND ON FRENCH VESSEL

Arrested Several Weeks Ago, Charged
With Smuggling Diamonds and
Laces Worth Twenty-Five
Hundred Dollars.

New York, April 13.—Commission-
er Shields today began the examina-
tion of Maurice Barnier, second cap-
tain of the French steamship La Sa-
voie, who was arrested here several
weeks ago charged with smuggling
diamonds and laces worth \$2,500.

Barnier's examination may reveal
an extensive scheme to defraud the
government. The method, usually
simple, consists in a foreign firm
working with confederates in New
York, actually using, or counterfeiting,
consular mail for smuggling pur-
poses. A messenger, who is an ac-
complice, delivers the genuine mail
to his consul and "holds out" the
smuggled goods from the New York
confederate.

The treasury department suspects
that large quantities of dutiable goods
have been fraudulently imported by
this method. Hitherto, following a
custom of international courtesy, bags
containing diplomatic and consular
documents and packages, of whatever
size, so long as they bore the seals of
a foreign state department, have been
admitted without inspection. More
care will be taken hereafter.

About six months ago a French-
man in hard luck applied for a posi-
tion with the French consulate.

He made such a good impression
that the consul general, Etienne La-
nel, added him to the staff. He was
assigned to convey the official mail
between the French liners and the
consulate at 35 South William street.

Three weeks ago, according to Vice
Consul Heilmann, the consul general
was informed by the custom house
that the man was suspected of smug-
gling, and he was instantly dismissed.

It is the custom on the French line
to intrust official mail to the care of
the second captain, and in Barnier's
cabin Acting Deputy Surveyor Edward
R. Norwood found two packages, three
feet long, each containing laces worth
\$1,000. Jewelry worth about \$300 was
also found.

The goods were sent to the public
stores, and Deputy Surveyor George
J. Smyth and the United States dis-
trict attorney's officials are now look-
ing for the former messenger and the
firm to which he has been delivering
goods.

The French consulate is absolved
from all blame, and Second Captain
Barnier says he is entirely innocent
of any wrong, as it is part of his du-
ties to take charge of packages ad-

mitted to the embassy or the consul-
ate.

In this case the packages were not
addressed, but bore seals which re-
sembled the official seal. Only a close
examination would reveal that they
were counterfeit.

BREAD, TOO, IS GOING UP

Staff of Life.

St. Louis, Mo., April 13.—As a re-

vanced 1 cent a loaf there. Bakers in
St. Louis believe a similar advance
is sure to be felt here soon.

Advices from Chicago are that with-
in two weeks there is likely to be a
rise in bread all over the United
States, and that even England may
also be affected.

S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulat-
ing the temperature of our bodies. This is done by an evaporation through
each tiny outlet, which goes on continually day and night. When the blood
becomes infected with humors and acids a certain percentage of these
impurities also pass off with the natural evaporation, and their sour, fiery
nature irritates and inflames the skin, and dries up its natural oils, causing
pimples, boils, pustules or some itching rash, or hard, scaly skin affection.
S.S.S. cures skin troubles of every kind by neutralizing the acids and re-
moving the humors from the blood. S.S.S. cools the acid-heated circula-
tion, builds it up to its normal strength and thickness, multiplies its
nutritious, red corpuscles, and disposes of the exuding acid matter, in-
stead of being irritated and diseased by this cooling, healthy stream of blood.
S.S.S. is the greatest of blood purifiers, expels all foreign matter and surely
cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and
affections of the skin. It removes pimples, blackheads, and other un-
sightly blemishes from the skin and assists in restoring a good complexion.

Real Meaning of "Cravat."
"Cravat," or rather the French "cravate," means simply Croatian; Hume, the historian, for instance, speaks of certain troops as "Cravates and Tartars, Hussards and Cossacs." But the French borrowed the word for the new neckwear introduced among them in imitation of the linen scarfs worn by the Croatian mercenaries whom they saw during the Thirty Years' war. In English "cravat" has ranged in meaning from a tie to a comforter and has varied also in pronunciation both Pope and Dryden accenting the word upon the first syllable.

The Queen of S.

A correspondent sends an amusing story of a visit which the archbishop of Canterbury recently paid to a certain Sunday school. For a few minutes Dr. Davidson took in hand a class of small girls who were going over the story of Solomon. "Now," he asked, "who was the great queen who traveled so many miles and miles to see the king?" No one answered. "Why, you all know. The queen who came to see the king?" Still no one seemed to remember. "You do know, I am sure," persisted Dr. Davidson. "The name begins with S; and she was a very great queen." Just then a little hand shot up, and a shrill voice cried: "Please, I know, the Queen of Spades." M. A. P.

BUT JOHN WAS TOO SLOW

AN ILLINOIS MAN GOES TO OKLAHOMA AND GETS RUDE AWAKENING.

LICENSE AND PREACHER ARE ENGAGED

Girl Meets Him in a Hotel, but Takes Along Her Husband, to the Surprise of the Man From the Sucker State.

Muskogee, Ok., April 13.—John Cleveland, a prosperous farmer from Centerville, Ill., arrived here Sunday to claim a bride, only to find that she had married another man.

Cleveland and Miss Bettie Winkler were betrothed in the Illinois town, and when the girl moved to Muskogee they corresponded for a number of years. Finally Miss Winkler's letters failed to arrive. Cleveland waited patiently for months, writing every week. Finally he concluded he would come to Oklahoma and get her. He arrived here Saturday and walked about the town with a red rose in his buttonhole.

Failing to find her he placed a want advertisement in a local newspaper, giving his name and address. This brought a telephone message from the girl, who said she would visit him at his hotel at an appointed hour. Cleveland engaged the bridal chamber and got one of the hotel guests to look after the getting of the license and a preacher.

Everything was in readiness for a wedding when Bettie Winkler arrived at the hotel. But she brought a young man with her whom she introduced as her husband.

"I am married already," John, she said; "you waited too long."

The party then went out to the hotel together and "enjoyed the evening immensely," according to Cleveland.

"Just say," said Cleveland, confidentially, to some newspaper men, "that she is an old friend of mine, and I dropped into Muskogee to see her. Say, too, that her husband is a very fine man."

He added that he liked Muskogee, and would turn his farm over to his brother and get a job here.

The cleverest imitation of real coffee ever yet made is Dr. Shoop's Health Coffee. It is fine in flavor, and is made in just one minute. No tedious twenty or thirty minutes' boiling. Made from pure parched grains, malt, nuts, etc. Sold by J. R. Williams.

"CALLED BY DARKNESS"

No Longer to Be Heard in Cincinnati and Pittsburgh.

Pittsburg, Pa., April 13.—The new \$1,000,000 baseball park, in which the Pirates will meet their opponents after July 1, has been equipped with an extensive electrical system by which ball games at night will be possible. Secretary Loche, of the baseball club, announced that it was not the intention of the management to have night games, but that owing to the peculiar conditions in Pittsburgh it was absolutely necessary to install the lighting system.

George F. Cahill, the inventor of the lighting system, is putting in a similar equipment at Cincinnati, and although he refuses to give out the de-

tails, he declares that in the future there will be no games "called on account of darkness" either in Cincinnati or Pittsburgh.

Will Assist Dr. Warren.

After April 1 I will be assisted in my work by Dr. Fred Wolfe, who was with me last year. Dr. Wolfe has been a student in the Kansas City Veterinary college for two years, has passed the state board of examiners and is now licensed as a practitioner. We will be able to give you prompt service at any time. We solicit your business and assure you UP TO DATE SERVICE AND A SQUARE DEAL on all occasions. WOMEN TO MAKE OWN BREAD

Patten Forces Housewives to Economize in Pastries.

Minneapolis, Minn., April 13.—Housewives of Minneapolis are being driven to make their own bread, and James A. Patten, Chicago wheat king, through bakers of Minneapolis, is driving them to it.

"The days of cheap wheat are over," says Patten. One dollar and 5 cents is added to the price of each barrel of flour.

"Then," say the bakers, "we will make housewives do their own baking. Shall we allow ourselves to lose money selling bread at 4 cents a loaf?"

A SKETCH OF JEFFERSON

HE WAS BORN AT SHADWELL, IN THE STATE OF VIRGINIA, APRIL 13, 1743.

WAS ONCE WEALTHY, BUT DIED POOR MAN

Wrote the Declaration of Independence and Founded the University of Virginia—Died July Fourth, 1826.

Richmond, Va., April 13.—Today is the anniversary of Thomas Jefferson. He was born April 13, 1743, at Shadwell, Va. From his father, who was of Welsh descent, he inherited a large estate, which was increased by his marriage in 1772 to Martha Skelton, a widow.

His public life commenced in 1769, when he was elected a member of the Virginia house of burgesses. He took an earnest part in the measures which were a prelude to the revolution, and in 1773 as a member of the assembly, he took a prominent part in the proceedings which resulted in the calling of the continental congress, to which he was sent as a delegate.

He was made chairman of the committee of five, appointed to draw up the Declaration of Independence, and that document, with the exception of a few changes suggested by John Adams, was written by him.

Jefferson soon after resigned his seat in congress for the reason that his private affairs demanded his presence in Virginia. He was a member of the legislature and bore an active part in the attempt to make the statute books of the state harmonize with republican principles.

He endeavored to abolish the quasi connection which existed in Virginia between the church and the state. In this he was not successful at the time, but nine years after the "Act for Establishing Religious Freedom," which he had drawn up, was passed.

In the epitaph which he composed for himself, this statute, the authorship of the Declaration of Independence and the founding of the University of Virginia are set down as the three acts of his life by which he wished to be remembered.

His name will be long celebrated also for the fact that he was the original democrat, and is regarded in a sense as the founder of the democratic party.

During the war of the Revolution he was governor of Virginia, and in 1784 was sent as minister to France. In 1783 he was elected to congress.

In 1784 he was sent to France as joint plenipotentiary with Franklin and Deane, who were already there. He remained in France until 1789, when Washington appointed him secretary of state. This he resigned, early in 1794, declaring that no "circumstances whatever will ever tempt me to engage in anything public."

Jefferson led the party in favor of state's rights and a federal government of restricted and carefully defined powers. The other party took the name of federalists. The former were called anti-federalists, then republicans and finally adopted the title given to them as a reproach as democrats.

When Washington retired after eight years as president and a new election took place, the two highest candidates were John Adams and Jefferson. Adams having the highest vote, was declared president, while according to the way the way the constitution then read, Jefferson became vice president, in 1797.

The strife of the parties culminated in 1800, when Jefferson and Aaron Burr were elected president and vice president against John Adams, the federalist candidate.

The most important act of his administration was the purchase of Louisiana from France. Though born and educated in the first rank of colonial life, Jefferson was a democrat in theory and practice; he held that "the world is governed too much," and that "that government is best which governs least."

Though a large slave holder he labored for the prohibition of the slave trade, and of slavery in territory beyond the Ohio river, and advocated emancipation in Virginia.

His writings consist mostly of state papers and letters. His only literary work was "Notes on Virginia," published in 1782. He had one child, a daughter and has numerous descendants.

His death was very remarkable. It occurred on the fourth of July, 1826, while the nation was celebrating the fiftieth anniversary of the Declaration of Independence, which he had written.

On the same day John Adams, who had signed the Declaration with him, died in New England. Before his

GOOD, HONEST, SQUARE-DEAL

Medicines like those of Dr. R. V. Pierce of Buffalo, warrant their makers in printing their every ingredient, which they do, upon their outside wrappers, verifying the correctness of the same under oath. This open publicity places these medicines in a class all by themselves. Furthermore, it warrants physicians in prescribing them largely as they do in their worst cases.

Dr. Pierce's Golden Medical Discovery

Is a most potent alternative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach and bowels, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), liver, bowels (as mucous diarrhea), or other organs.

Dr. Pierce's Favorite Prescription

Is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities peculiar to women. It is a powerful yet gently acting invigorating tonic and nerve.

For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American, medicinal, forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum. Don't do it.
